RESEARCH EXPERIENCE

Graduate Researcher

Ohio State University (*Adviser: Xiaoyi Lu*)

- *Disaggregated storage: Studied and characterized NVMe over Fabrics (NVMe-oF) over different network protocols using Intel SPDK. Working on adding a new fabric transport to NVMe-oF for datacenters.*
- *Persistent memory: Analyzed Intel Optane DC Persistent Memory Module (DCPMM) to generalize persistent memory characteristics through micro-benchmarks and performed case studies to guide the design of storage systems.*

PROJECTS	<p>Azure VMware datacenter monitoring</p> <p><i>Microsoft Corp.</i> (Mentor: Amit Chattopadhyay) May 2020 - Jul 2020</p> <p>Built an end-to-end pipeline to collect, analyze, and monitor VMware vCenter cluster metrics and host system logs for the software-defined data center running on Azure bare-metal nodes.</p> <p>Augmenting the Visual Studio GateInsight tool</p> <p><i>Microsoft Research - Cambridge</i> (Mentor: Katja Kevic & Brendan Murphy) Jun 2019 - Aug 2019</p> <p>Worked on the GateInsight tool in Microsoft Visual Studio which provides insight to developers about the feature toggles in the Office source code. The tool uses information collected from an analysis framework that finds all the feature toggles.</p> <p>Study of Request-Routing in Content Delivery Networks</p> <p><i>UW-Madison</i> (Course: Adv. Computer Networks, with Prof. Paul Barford) Sep 2018 - Dec 2018</p> <p>Performed a study of request-routing algorithms and mechanisms in CDNs, subject to varied network conditions. Discovered whether the request routing algorithms of a CDN actually determines the best edge server with respect to client perceived latency. [Code] [Report]</p> <p>Coordination server for SAFER Home</p> <p><i>UW-Madison</i> (Adviser: Prof. Suman Banerjee) Jan 2018 - May 2018</p> <p>As a member of the Safer Home project, designed a server in ParaDrop, an edge computing platform, which coordinates messaging and video streaming during normal and emergency situations. The project was selected for application development award in US Ignite. [Link]</p>
